NOTABLE PROJECTS

- Utah Red Hills Renewable Energy Park has the capacity to generate 104 MW of electricity -- enough to power over 20,419 Utah homes.
- Several large retailers in Utah have gone solar including Patagonia and Uinta Brewing Company. IKEA has
 installed one of the largest such installations with 1 MW of solar capacity at their location in Draper.
- At 1 MW, Weber State University Davis Campus Solar is among the largest solar installations in Utah.
 Completed in 2007, this photovoltaic project has enough electric capacity to power more than 255 homes.
