EVENTS

Complimentary One Day Workshop to Address High Penetration and the Latest Distributed PV Integration Efforts

SEPA, along with EPRI and the U.S. Department of Energy, will host a one-day High Penetration PV Grid Integration workshop on Thursday, April 19th from 8 a.m. - 5 p.m. at the JW Marriott Starr Pass in Tucson, AZ. [View the agenda](#).

This workshop will focus on the key issues that utilities are facing with high penetration of distributed solar. This opportunity, available only to SEPA solar industry members and utilities, will provide you the outlet to interact face-to-face with utilities and discuss challenges of high penetration. If distributed generation is an integral part of your company's growth strategy, sign up now for your seat at the table.

Application of current research and status of integration standards will also be covered and is an excellent opportunity to hear what others are doing and to catch up on the latest efforts in distributed PV integration. There is no charge for this event, but [registration is required](#).

Sign up now! Questions? Contact Stephanie Szurek, sszurek@solarelectricpower.org or 202.559.2023.
