The Honorable Joseph R. Biden, Jr. President of the United States The White House 1600 Pennsylvania Avenue, NW Washington, D.C. 20006

The Honorable Nancy Pelosi Speaker of the House U.S. House of Representatives H-232, U.S. Capitol Washington, D.C. 20515

The Honorable Charles Schumer Senate Majority Leader U.S. Senate S-221, U.S. Capitol Washington, D.C. 20510

Dear President Biden, Speaker Pelosi and Leader Schumer,

Supporters of clean energy, energy efficiency, and clean transportation believe now is the time to act on the policies that will build a secure and sustainable energy future for all Americans. We respectfully urge you to take the time needed, delaying the August recess if necessary, to re-engage in negotiations and pass the energy tax package through reconciliation.

The energy tax package negotiated as part of the reconciliation process will fight inflation by reducing the cost of energy for American families and businesses, decreasing the deficit, and building a pipeline of good paying jobs in every state in the country, across numerous skill levels and sectors. The energy package will also make significant emission reductions over the next decade, advance U.S. competitiveness and domestic manufacturing, and increase our energy security.

Additional delay in adopting the transformational policies contained in the package only hinders progress on these national goals. Clean energy leaders, customers, and advocates across the country are poised to act on these goals. Please pass the tools in reconciliation to help us make that possible.

The opportunities are too great to abandon, and the cost of inaction is too high not to take every effort for success. A window of opportunity remains, and we urge you to take it.

It's time to get this done.

Sincerely,
