COMMUNITY IMPACT

Concord Nursery Finds New Steady Income with Solar

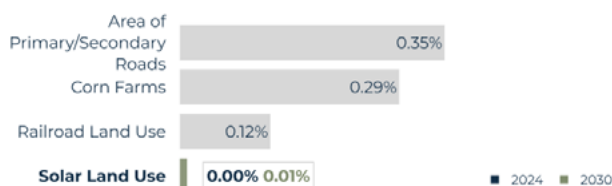

A nursery in Concord that found a parcel of its land to be too sandy for farming is now giving it a new productive life as a five megawatt solar array with enough capacity to power 1,000 homes.

Exeter Uses Solar Energy on Former Landfill

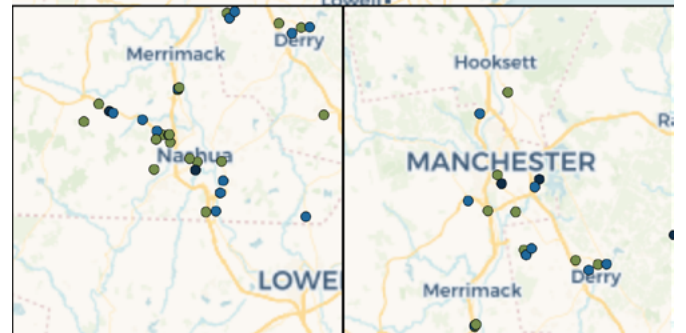

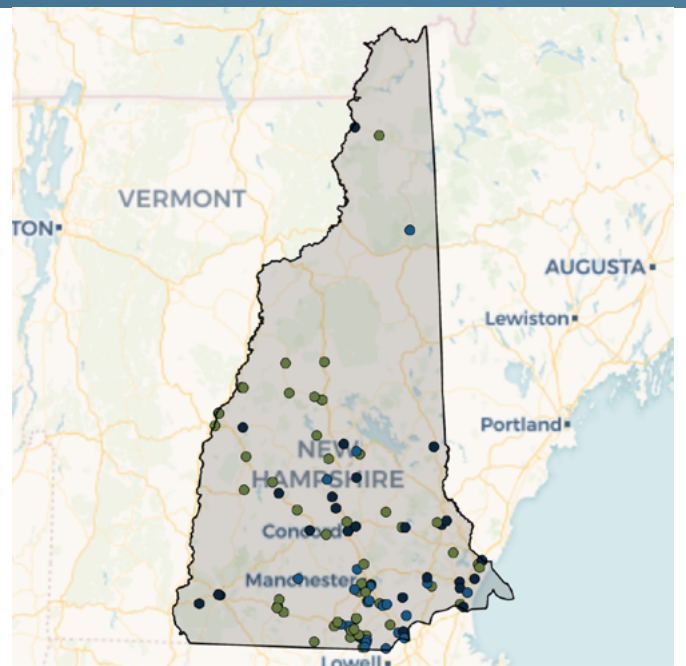

The largest municipal solar array in the state opened on a capped landfill in Exeter. The array generates 1.8 MW and will cover the entirety of town energy costs and lower their expenses by \$250,000 every year, leading to savings for taxpayers.
